General Information

Millington's Government

The City of Millington operates under a City Manager/Board of Mayor and Aldermen form of government. The mayor and seven aldermen are elected for four-year terms and are part-time positions. The Board of Mayor and Aldermen is the legislative and policy-making body of the City. The mayor does not vote except to break a tie. By Charter, the Mayor is the chief executive officer and the City Manager is the chief administrative officer, responsible for day-to–day management of the City.

Fiscal Year

As required by State law, the city operates on a fiscal year beginning on July 1 and ending the following June 30.

Basis of Budgeting

While the city performs many services and both receives and expends money for many different purposes, it does not combine all those activities into a single set of financial records. Generally accepted accounting principles (GAAP) followed by governments in the United States require governments to utilize a concept known as fund accounting. The activities of the City are organized into funds, each of which are considered to be separate accounting entities. The basis of accounting used is determined by the type of fund. The city uses two types of funds, governmental and proprietary.

The City does not distinguish between Basis of Budgeting and Basis of Accounting, as reflected in the City's Annual Financial Statements. The principles set forth as the Basis of Accounting are strictly observed in the budgetary process.

The City budget for governmental funds is prepared on a modified accrual basis of accounting except for encumbrances. Unencumbered appropriations and encumbered appropriations for non-capital expenditures lapse at the end of each fiscal year, with encumbered appropriations for capital projects being carried forward to the next year. The budget for proprietary funds is prepared on an accrual basis of accounting

The City has these Governmental Funds:

The **General Fund** is the primary operating fund of the City and accounts for all financial resources of the general government, except those specifically provided for in another fund. Most of the essential governmental services such as police and fire protection, community services, and general administration are reported in the General Fund.

The **State Street Aid Fund** accounts for the receipts and expenditures of the City's share of the proceeds from the state gasoline tax and gasoline inspection fees collected by the State of Tennessee.

The **State Drug Fund** accounts for the receipts and expenditures related to the City's share of proceeds from state-imposed drug fines and confiscations.

The **DEA Drug Fund** accounts for the receipts and expenditures related to the City's share of proceeds from federally imposed drug fines and confiscations.

The **Storm Water Fund** accounts for the receipts and expenditures related to the collection, transportation, treatment, and disposition of storm water.

The **Sanitation Fund** accounts for the receipts and expenditures related to sanitation services.

The **Capital Improvements Fund** accounts for the financing of major governmental fund capital assets/projects of the City.

The **CIP – Middle School Project – USDA Loan Fund** accounts for the management of the Millington Middle School Project which will be funded by a USDA Loan.

The **General-Purpose School Fund** is the primary operating fund of the school and accounts for all the financial resources of the school except those required to be accounted for in another School fund.

The **Schools Federal Projects Fund** accounts for the receipts and expenditures of the school's federally funded programs.

The **Schools Nutrition Fund** accounts for the receipts and expenditures related to the school's cafeteria operations. These funds are required to be maintained in a separate fund.

The **Schools Capital Projects Fund** accounts for all the school's capital improvement projects.

Enterprise funds are proprietary funds used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to private sector businesses.

The City has these Proprietary (Enterprise) Funds:

The **Water Fund** accounts for the activities of the City's production, storage, and transportation of potable water.

The **Sewer Fund** accounts for the activities of the City's collection, transportation, treatment, and disposition of wastewater.

Budget Process

The budgetary process for the City of Millington begins in February with a meeting of the city manager, city directors and managers, where submission dates and parameters for budget requests are reviewed. Six months of actual data for the current fiscal year is given as a basis for departments to submit their estimates for the current fiscal year end. Departments are required to complete their budgetary requests for the new fiscal year and include justifications for any infrastructure, capital and program change requests. The Finance Department staff works with departments in reviewing personnel needs. The city administration reviews all requests on the timeframe as identified in the annual budget calendar. The final component of the budgetary development process is highlighted in a work session with the Board of Mayor and Aldermen. The Proposed Budget is presented to the Board of Mayor and Aldermen for adoption through two readings, including a public hearing.

Budgetary Control

Formal budgetary accounting is used as a management control for all funds of the City. Budgetary controls are exercised both at the departmental level, with the adoption of the budget, and at the line-item level through accounting controls. Additionally, budgetary control is maintained at the program level by the individual departments, acting in conjunction with the Finance Department.

Under provisions of the City's charter, the Board of Mayor and Aldermen annually enact by ordinance the operating budgets of the general, special revenue, capital projects and enterprise funds, which cannot exceed appropriation except by approval of the governing body. The total budgets of these funds constitute legal spending limits, requiring ordinance amendment. The City Manager and Finance Director together may approve transfers between accounts within a fund without the governing body's approval. The City Manager and Finance Director together may increase the budget for grants accepted by the Board by resolution. The Board must approve other transfers or requests for additional funds. Thus, departmental appropriations comprise a legal spending limit for governmental fund types, except for capital projects funds for which the project length financial plans are adopted. The basis of accounting applied to budgetary data presented is consistent with the appropriate basis of accounting for each fund type.

The Capital Projects Funds account for the receipt and disbursement of all resources used in the acquisition and construction of capital facilities where the construction period is expected to exceed one year, other than those financed entirely by Proprietary Fund Types. The primary funding sources are debt proceeds and General Fund transfers. The facilities constructed and assets acquired become a part of the City's fixed assets and are, therefore, recorded in the General Fixed Assets Account Group. The residual equity in Capital Projects Funds, if any, is returned to the General Fund upon completion of the project.

Operating Budget

The operating budget will be based on the principle of financing current expenditures with current revenues or accumulated reserves. Operating expenditures will not be directly supported by debt. Expenditures shall include adequate funding for retirement systems and adequate maintenance and replacement of capital and operating assets. Budgeted expenditures shall reflect the City's perceived needs and desires of the community.

Revenues

The operating budget will be developed with the objective of funding all well justified goals, while avoiding tax increases. The city will strive to diversify the revenue base, reducing its dependency on sales taxes. Revenues will be conservatively projected based on current information and historical trends.

User fees will be developed and continually reviewed to ensure that they recover the cost of services that are not universal to all taxpayers. In the Water and Wastewater Funds, user fees will provide full coverage of direct and indirect costs including depreciation. In the Sanitation Fund user fees will be maintained at a level to cover operating costs and build reserves for equipment replacement.

Expenditures and Expenses

Governmental funds have expenditures while enterprise funds have expenses. Management of each department determines what is required to perform the services provided during the fiscal year. Expenditures/expenses are liberally estimated based on current information and historical trends in order to insure adequate funding.

Capital Improvements Program

The Capital Improvements Program (CIP) will reflect a consensus of the perceived needs and desires of the community. The CIP will be cognizant of the financial impact on the applicable fiscal year and the City's past, present and future goals. The CIP will generally address those capital projects used for the acquisition or construction of major capital facilities.

The city will update and adopt annually a five-year CIP, including the annual Capital Improvements budget and a four-year projection of capital needs and expenditures which details the estimated cost, description and anticipated funding sources for capital projects. The plan will include costs that have been estimated including consideration for inflation.

The city will maintain its physical assets at a level adequate to protect the City's capital investment and to minimize future maintenance and replacement costs. The budget will provide for the adequate maintenance and the orderly replacement of capital plant and equipment from current revenues where possible. Future maintenance or replacement costs will be factored into future years CIP as a result of the entry of a new project.

The first year of the five-year CIP will be the basis of formal fiscal year appropriations during the annual budget process. As part of the annual budget process, the CIP will be evaluated and adjusted with changes in priorities. If new project needs arise during the year, a budget adjustment identifying both the funding sources and project appropriations must be presented to the Board of Mayor and Aldermen (BMA) for approval. The approval must occur before active progress is made on the planning, design, or construction of the project. Projects may be granted exceptions as to promptly resolve any dangers to the community.

Projects will be monitored to ensure compliance with CIP Policy and Procedures. Projects will be entered into a timeline to produce a CIP schedule. Post-project evaluation reports will be used to determine the successfulness of a project.

Financing

The two basic approaches to funding capital projects are pay-as-you-go and pay-as-you-use. Pay-as-you-go means paying for the capital project out of current revenues at the time of expenditure. Pay-as-you-use means borrowing to finance the expenditure with debt service payments generated from revenues raised through the useful life of the project. The CIP will use a combination of these two financing methods. Capital projects are funded through debt, reserves, grants and other governmental sources. The average maturity of general obligation debt will be at or below 25 years. The Mayor and Board approved an exception to this policy for the $26,000,000 USDA bond issue for schools.

Debt Management

Debt may be used to finance long-lived capital and operating assets for the city as well as the School District within the constraints of maintaining or improving bond ratings and debt service quality and payments. The city has an A1 credit rating from Moody's.

Debt policy and management provides for the protection of bond ratings, compliance with debt instrument provisions and appropriate disclosure to investors, underwriters and rating agencies.

TO: Board of Mayor and Aldermen

RE: Proposed FY 27 Budget

Dear Honorable Members of the Millington Board of Mayor and Aldermen,

I am pleased to submit the proposed FY27 budget for your consideration.

This budget reflects a continued commitment to disciplined financial management while making meaningful investments in the areas that matter most to our community. Even in a time of economic uncertainty, Millington remains well positioned due to the steady approach and strong leadership you have provided. At its core, this budget is grounded in a simple idea: **we are stronger together.** That means leveraging partnerships, grants, and outside investment to maximize the impact of every local dollar.

Next year will be a big year. We will break ground on Lone Sailor. We will officially save the Harrold. We will mark the YMCA's 25 year anniversary in our community with a major renovation and expansion supported by state and philanthropic partners. We will save lives by transitioning our fire department from Basic Life Support to Advanced Life Support and making major investments in public safety. These are significant steps forward for our community, and they are only possible because of the direction you have set and our shared commitment to moving Millington forward together.

The proposed budget maintains a no tax increase while prioritizing investments in public safety, infrastructure, education, and our workforce. It includes the transition to ALS service, continued expansion of public safety resources, and significant capital investments in water, sewer, and facilities, including a new fire station and connected park asset in the fastest growing area of our city.

To support these capital investments, the budget does include the use of bond proceeds. Due to declining debt service, increasing revenues, and consistent general fund investment in our Capital Improvement Program, the City is in a strong position to responsibly take advantage of significant grant and partnership opportunities. This approach allows us to maximize outside funding while continuing to maintain long-term financial stability.

We are also continuing to invest in our employees, including a 5% pay raise and the addition of paid parental leave, recognizing that our team is central to delivering services at a high level. For our police officers, this investment is even more meaningful when combined with our existing step plan, where most officers already receive approximately a 5% annual increase, resulting in total compensation increases of around 10% for most officers next year, with firefighters seeing similarly strong total increases when step movement is combined with the proposed raise. These efforts build on significant progress in recruitment and retention driven by police department pay adjustments over the last two years. This budget also continues key retention initiatives, including the third year of the Employee Residency Bonus Program, the second year

of the Fire Medic 5% special pay program, and the continuation and expansion of police special pay programs such as Field Training Officer pay, bilingual pay, Animal Control Officer pay, Criminal Investigations Division pay, and the expanded take home car program.

Our community will feel and see the impact of this budget. We continue and expand investment in parks and quality of life amenities, including investments in every existing park, a new park in a growing area of the city, and the initial development of Greenline connections. It also expands support for youth mental health through partnerships with local organizations and faith-based institutions.

We are able to do this work through strong partnerships. We are working with the Navy League, the YMCA of Greater Memphis, the Millington Chamber, USA Stadium, the Metropolitan Inter-Faith Association, local churches, and others to leverage significant local, state, and federal resources and expand the impact of our investments.

Importantly, this budget leverages a substantial amount of grant funding to support capital improvements, allowing us to extend the impact of local dollars while working collaboratively with local, state, federal, and philanthropic partners.

Because, again, we know that we are stronger together.

I look forward to discussing the proposed budget with you and department leadership in detail during upcoming work sessions.

Best,

Frankie Dakin
City Manager
City of Millington

FY27 Budget Highlights

No Property Tax Increase – The property tax rate for FY27 will remain unchanged. Maintaining the current rate reflects the City's commitment to fiscal responsibility while continuing to enhance service levels, support infrastructure improvements, and meet operational demands without placing an additional burden on taxpayers.

Increase in Service Levels – Continued investment in vital services including Police, Fire, Sanitation, Public Works, and Parks and Recreation to meet growing community needs and improve overall service delivery. Key enhancements include expanded Advanced Life Support (ALS) capabilities, expansion of Millington Police School Resource Officer and Traffic Enforcement programs, significant investment in fleet, improvements to sanitation efficiency and routes, and expanded parks, recreation, and library programming.

Growing Support for Youth and Families – Continued investment in education through expansion of the School Resource Officer program, a 10% increase in Deferred Maintenance funding available to schools, and increased parks, recreation, and library capital investment and programming for youth. New mental health support fund to support youth and community-led mental health efforts.

Public Safety

• Construct and relocate Fire Station 1 to improve response times and support future growth
• Transition to ALS service with investments in staffing, training, and equipment to improve medical outcomes
• Replace aging apparatus, including a 100-foot quint truck, and continue upgrading patrol and fire fleet
• Strengthen community safety presence with an additional School Resource Officer and Traffic Enforcement Officer

---

Public Health and Quality of Life

• Expand parks and recreation programming across all age groups and increase participation
• Improve every park with targeted user experience upgrades and continued investment in amenities
• Increase utilization of key assets including Ed Haley Sports Complex gym, Millington Public Library, and Edmund Orgill Golf Course
• Expand access to mental health resources through community partnerships

---

Communications and Technology

• Establish a shared GIS position to support planning, emergency response, and infrastructure coordination
• Expand online services, including payment processing, to improve efficiency and customer experience

---

Infrastructure and Capital Improvements

• Advance Phase 1 of the Millington Greenline and expand trail access through regional partnerships
• Invest in roads, sidewalks, and neighborhood infrastructure, including repaving and targeted improvements
• Upgrade stormwater operations with new equipment to improve drainage and system performance
• Continue major water and sewer investments, including replacement of aging lines, lift station upgrades, and lagoon improvements

---

Education

• Continue support for Millington Municipal Schools through an additional School Resource Officer
• Continue the second year of the Educational Facility Deferred Maintenance Fund and increase the fund by 10%
• Expand library programming and increase community engagement

---

City Employees

• Provide a 5% pay raise, with most police officers and firefighters seeing total compensation increases of around 10% when combined with step increases
• Maintain no increases to employee insurance premiums and add paid parental leave
• Continue funding the third year of the Employee Residency Bonus Program
• Continue the second year of the Fire Medic 5% special pay program
• Continue and expand police special pay programs, including Field Training Officer pay, bilingual pay, Animal Control Officer pay, Criminal Investigations Division pay, and the expanded take home car program
• Establish a standalone HR function to strengthen workforce development, training, and employee support

State Drug Fund

Summary

Operating Budget

115 State Drug Fund

Category	Prior Year Actual	Current FY Forecast	FY 27 Budget
Revenues	29	360	**28**
Operations	1,502	130	**17,150**
Change in Fund Balance	(1,473)	230	**(17,122)**
Beginning Fund Balance July 1	90,531	89,058	**89,288**
Ending Fund Balance June 30	89,058	89,288	**72,166**

This fund accounts for the receipts and expenditures related to the City's share of proceeds from State imposed drug fines and confiscations. It helps support the functions performed by the City's Police Department but is not intended to be used in place of General Fund funding. This Fund does not have any employees.

Net from Operations	**64,828**	**38,046**	0
Beginning Fund Balance July 1	**65,784**	**130,612**	168,658
Ending Fund Balance June 30	**130,612**	**168,658**	168,658

This fund accounts for the receipts and expenditures of the City's share of the proceeds from the State Gasoline Tax and State Gas Inspection Fee. These funds are restricted to use on public roads and ROW in the city. It is also supported by a transfer from the General Fund to cover the remaining annual cost of street maintenance.

Environment & Sustainability Manager	6	1
	Staffing Level	**1**

This fund accounts for the receipts and expenditures related to the collection, transportation, treatment and disposition of storm water. This fund is budgeted to reimburse the State Street Aid fund for 29% of its salary and fringe for personnel used to maintain the free flow of storm water. In addition, it reimburses City Hall for a portion of its staff.

Note: Cash on Hand as of March 31, 2026 = $7,886,833.52

This fund accounts for the activities of the City's collection, transportation, treatment and disposition of waste water. The City allows the Navy to transfer waste water for NAS Mid-South from their collection system and also allows Shelby County to transfer from their limited collection system adjacent to the City in addition to serving the City. State law requires user fees to cover the cost of operations as well as improvements.

This Fund accounts for the financing of major governmental fund capital asset purchases. A one year budget and a five year plan is developed each fiscal year. ***Projects begun and funded in a prior year, but not completed as of year end, will roll forward into the next year's budget with their funding.*** *Grants and general obligation debt are the primary source of funding these projects.*
